

# VOGUE OF HOGE

MARCH 12 2023  
AAISWARYA GOPINADAM  
AND JARED DUFFY

## UPCOMING EVENTS:

BREAKZONE BINGO-3/14

PI(E) DAY-3/14

BAGS 2 BEDS EVENT-3/15

LINEAR TEST REVIEW-3/19

## CAMPUS DESSERT OPTIONS

*Author: Kiara Klevar*

Every now and then you need something sweet to pull you through the hard days. Well, here are some sweets on Campus that you can try.

**1. Candy.** If you are just looking for candy, DX is the place to go. DX has a whole aisle with various candy including M&Ms, Skittles, Gummy worms, and many more. The other dining halls have some candy but not as extensive as DX.

**2. Ice cream.** Each dining hall offers ice cream. In my personal opinion, the best place to get ice cream is Turners when they have the ice cream stand open. They have a lot of different flavors to try. Another place is Viva or DX. They both provide pints of ice cream or ice cream bars.

**3. Milkshakes.** The two places that have the best milkshake are Burger37 and Deet's. Burger37 has more flavors to offer; however, Deet's has toppings, and the milkshakes are thicker. Both places have amazing milkshakes and I recommend trying at least one of them (Burger37 has the best cookies and crème milkshake ever).

**4. Cheesecake or cake.** WestEnd has various cheesecake flavors including cherry, strawberry, and plain. In addition, WestEnd has Red Velvet cake, Birthday cake, and other flavors. However, you can also go to Sweets at Owens, and they have different types of cakes that you might have never heard of.

**5. Cookies.** You can get cookies from anywhere on campus. Nevertheless, the best place to get a cookie is Squires. Squires has multiple cookie flavors including Red Velvet, Double Chocolate, Chocolate chip, and Peppermint Chocolate Chip.

## BETTER WEATHER

Author: Sid Somashekar

The weather is slowly warming up and people are starting to put away their winter clothing and break out the summer clothing. Spring isn't official yet, but we don't have to wait for the official start of spring to start living like it's spring! There are many ways to start living like it's spring, such as taking advantage of the outdoors and working outside. Why default to the library or your favorite study space when you could work outside? Don't feel like you have to stay in your room or always be inside, you can get some Vitamin D and be productive at the same time. There are many places around campus where you can sit outside and still have access to wifi, which provides the perfect opportunity to work outside!

You can also enjoy a meal or a drink outside as well. Dining halls have nice seating but don't be afraid to take your food outside and eat out in the open. Eating while taking in a gentle breeze can feel pretty good, and you can throw out any garbage in any of the garbage bins around campus and get to class in a flash. And after class, you can destress by taking a light nap on the drillfield, where you can count clouds until you fall asleep or let the heat from the sun put you to sleep. You can also find people playing sports and doing other fun activities on the drillfield until the sun goes down. Sneaking a frisbee or a ball into your bag wouldn't hurt in case you want to have fun with your friends after class. There's so much more to do, so don't forget to take advantage of any great weather we have over the next few weeks. And don't forget to pack an umbrella just in case!

## WHAT TO DO NEXT

Author: Jiyeon Park

I hope you had a wonderful spring break! Since we are halfway to the end of the 2022 - 2023 school year, here are some tips that I learned during my first year.

### 1. Figure out what you DO NOT like.

There are so many majors to choose from in engineering. It's hard to know where to even start. Are there classes that you did not enjoy? Which classes? Focus on what you dislike and remove them from your list. Personally, I did not enjoy PHYS 2305 class, so I removed some majors that involve physics from my list.

### 2. RESEARCH what you want to be in the future!!

If you haven't decided what you want to be majored in yet, you should research what you want to pursue. Also, it's good to read course descriptions for your interested majors. Here are some important dates for the end of spring 2023 application dates and deadlines:

**Major Application Open:** May 4, 2023 - May 19, 2023

**Final Grades Available:** May 14, 2023

### KEEP UP WITH YOUR WORK and prepare for your exams!!

We still have half more semester to go. Don't give up and you got this :)
